Foundation Board of Directors Engagement Event is 11/11/2023, Big Blue Huddle, AFC

Next Foundation Board of Directors meeting is 11/10/2023, 10:45 a.m. – 11:45 a.m., AFC 209

Volunteer Summit, 12 p.m. – 6:30 p.m., AFC

The next Investment Committee meeting is 1/23/2024, 3 – 5 p.m., AFC 209/Zoom.

INVESTMENT COMMITTEE MEETING

Tuesday, July 25, 2023, 3:00 p.m. AFC Room 209/Hybrid

Meeting Minutes

Directors Present

Mike Mers – Committee Chair Chuck Hallett, Darren Kyle, Cheryl Larabee, Rod Mackinnon, Ryan Relyea, Glen Walker, Brian Yeargain

Advisors

Chris Burke-Frank Church Treasurer, Jim Hudson -Alumni Association Oksana Rencher-RVK, Josh Kevan-RVK

Staff attendees

Paul Powell, Anne Sorenson, Alison Bilgic

I. Call Meeting to Order

Mike Mers called the meeting to order and made introductions of those in the meeting welcoming new members to the committee.

II. Approval of Minutes from April 18, 2023 [VOTE]

Mike Mers called for a motion to approve the Minutes from the April 18, 2023 Investment Committee Meeting.

Motion from Glen Walker to approve the April 18, 2023 Minutes. Seconded by Rod Mackinnon Approved by unanimous vote.

III. RVK Quarterly Report

Oksana Rencher briefly reviewed the Quarterly Performance Report produced by RVK. She began with a capital markets review. During Q2 investors focused on the uncertainty of the future interest rate path and timing of further actions by the US Federal Reserve and other global central banks. In the June data release the CPI slowed to 3.0%, its lowest since March 2021.

- US equity markets delivered strong results in Q2, primarily driven by the largest growth-oriented companies and better-than-expected bank earnings.
- Non-US equity markets trailed the US equity markets in the quarter due to concerns regarding persistent above-target headline inflation.

• With the exception of below investment grade debt, US fixed-income broadly posted negative returns on Q2, with the yield curve inverting further.

Ms. Rencher continued her review specific to the Foundation's investments. She noted that the market value of the endowment portfolio as of June 30 was \$145.8M vs. \$135M at the end of the last fiscal year. It experienced a net investment return of 3% for the quarter and ended FY23 with a strong absolute return of 9.9% net of fees. The portfolio lagged the index by 1% due to the strategic overweight relative to the market in small/mid-cap equities.

IV. Asset Allocation Review

Mike Mers provided background on the Foundation hiring RVK as a consultant about 9 years ago and about that time shifting largely away from active management for the endowment portfolio. Josh Kevan noted the Investment Committee (at the time of the switch) had a clear preference for: simple, low-cost passive implementation largely via index funds, strategic rather than tactical asset management. They identified two primary long-term biases: value, and the overweight to midcap.

Mr. Kevan explained that in late 2021/early 2022 RVK expressed concerns that investing in only public liquid markets may not deliver the long-term objectives. However, due to rapid shifts in the market we put changes to asset allocation on hold and proceeded with a systematic review by asset class: Fixed Income in October, Global Equities in Jan, Global Real Assets in April, and now Asset Allocation.

Mr. Kevan reviewed the investment principles from the Investment Policy with the committee. He also reminded the committee that it takes an 8% return to cover the current spend rate, administrative fee and expected rate of inflation. Mr. Kevan also presented RVKs risk and return assumptions for different asset classes.

As requested at the last meeting, Mr. Kevan presented an efficient frontier including asset categories that RVK would recommend the Foundation consider for improved portfolio performance. The frontier includes private real assets; specifically core real estate and core infrastructure. General discussion followed.

Mike Mers asked if we were to remove the constraint of liquid only, what are the top 2 or 3 assets we might consider? The answer was: Emerging Markets Debt and MLPs. He followed up with, if RVK was building our portfolio from scratch would they recommend what we currently have? The answer was "essentially yes". Mr. Mers initiated a discussion around the possible recommendations, and asked if anyone has issue with our current biases: tilt to international equities, tilt towards mid cap? Josh Kevan stated that RVK continues to like these biases in the portfolio. Everyone agreed that there is no need to make a change to the biases.

Mr. Kevan commented that RVK is not suggesting changes are necessary. They do think illiquid assets like EM Debt and MLPs improve inflation characteristics, but would cause challenges for optionality and rebalancing. RVK is very comfortable investing in private Real Estate and Private Infrastructure.

Rod Mackinnon questioned if our peers are in the same place on their purchasing power, and the answer was yes.

After more discussion, Mike Mers proposed next steps that we move forward with portfolio we have, and look further into options that would capture more total expected return than 24 basis points. Mr. Mers will meet with RVK to discuss and bring it back to the Committee.

V. Foundation Financial Report

In the interest of time, Mr. Powell briefly reviewed the balance sheet and income statement. He highlighted pledge receivables at \$15M, commenting that 3 years ago they were only about \$1.6M.

VI. Annuities and Trusts

Mr. Powell reviewed a couple of changes in annuities and trusts. We added a new \$500k Charitable Gift Annuity from an 89-year-old, who also gave \$160k of current use funds for scholarships. Norm Dahm passed away and we will realize about \$500k from the Dahm Family Charitable Trust.

VII. Other Business

Cheryl Larabee posed a question for future consideration about how are we using AI and other recent technologies to keep our expense level low.

VIII. Executive Session

No executive session.

IX. Adjournment

Mike Mers adjourned the meeting.

Minutes Approved:	
Mike Mers, Committee Chair	

Foundation Board of Directors Engagement Event is 8/10/2023, 5:30 – 7:30 p.m. Hemingway Center Next Foundation Board of Directors meeting is 8/11/2023, 9:30 a.m. - 1 p.m., AFC Ballroom/Zoom. The next Investment Committee meeting is 10/24/2023, 3 – 5 p.m., AFC 209/Zoom.

2023 Q3 BSU Foundation Investment Summary

- The market value of the Foundation (Total Assets) as of September 30th is estimated at **\$139.1 million**, down about \$6.7 million from the 2023 fiscal year end, inclusive of the annual distribution.
- The Foundation (Liquid Assets) returned a negative 3.16% for the first fiscal 2024 quarter, trailing the long-term target allocation index by 0.27%. Even with this market correction, the Liquid Assets Fund posted a very strong 1-year trailing return of 13.8%, net of fees, led by double digit returns for both domestic and international equities.
- During Q3, investors grappled with mixed signals regarding the health of the economy and the direction of corporate profits. As the prospect of a "higher for longer" outlook for interest rates was digested by investors, it led to increased volatility and negative equity market returns in the latter part of the quarter.
 - US equity markets reversed into negative territory after an extended rebound during the first half of the year. Large-cap stocks outpaced mid- and small-cap stocks, but there was no major dispersion between growth and value stocks.
 - Developed non-US equity markets continued to trail the US equity markets and even emerging markets during Q3 due to concerns regarding persistent above-target headline inflation.
 - The nature of the FOMC message drove a repricing of yields across fixed-income markets resulting in broad negative returns across both domestic and international fixed income markets in Q3.
- As of the quarter end, asset allocation was in-line with the approved investment policy ranges.
 - Domestic equity composite was the biggest drag on the total fund performance with a negative return of 4.1%. On a relative basis, the composite lagged the index by 0.8% due to the strategic overweight relative to the market in small/midcap equities.
 - International equity composite posted a negative return of 3.6% in the quarter, outperforming its benchmark by 0.13% mainly due to very a strong outperformance versus its index by the active DFA Emerging Markets fund.
 - Fixed income composite returned -3% for the quarter, outperforming its index by 0.24% thanks to the positive returns from the strategic allocation to emerging markets debt.
 - Global Real Assets composite provided some downside protection in the quarter with a positive return of 1.27%, slightly trailing its custom index by 0.53%. Harvest MLP and SPDR Global Natural Resources posted robust returns of 7.7% and 3.4%, respectively. REITs sold off in the quarter due to concerns about future interest rate hikes and recessionary pressures.

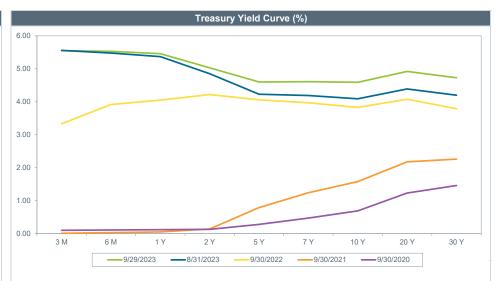

Capital Markets Review As of September 30, 2023

Treasury Yield Curve (%) Sep-23

General Market Commentary

- Global equity markets pulled back in September, with most US and international indices experiencing low to mid-single digit declines, and growth stocks generally underperforming their value counterparts.
- Bond markets also declined in September, as rates across the yield curve rose during the month, with the 10-year Treasury yield reaching a 16-year high.
- Stocks traded lower due to rising interest rates, mixed economic data, and concerns over economic growth. While
 the Fed paused interest rate increases at their September meeting, it was indicated that a higher-for-longer monetary
 policy will continue into 2024. Year-over-year inflation as of the end of August rose to 3.70%, higher than the July
 reading and the Fed's 2.00% target, but down significantly from 2022 highs.
- A potential US Government shutdown added to uncertainty, although ultimately Congress passed a bill on September 30th to keep the government funded through November 17th and avoid a shutdown.
- Equity markets posted negative returns in September as the S&P 500 (Cap Wtd) Index returned -4.77% and the MSCI EAFE (Net) Index returned -3.42%. Emerging markets returned -2.62%, as measured by the MSCI EM (Net) Index
- The Bloomberg US Aggregate Bond Index returned -2.54% in September, underperforming the -0.96% return by the Bloomberg US Treasury Intermediate Term Index. International fixed income markets returned -4.00%, as measured by the FTSE Non-US World Gov't Bond Index.
- Public real estate returned -6.80% in September and 2.77% over the trailing five-year period, as measured by the FTSE NAREIT Eq REITs Index (TR).
- The Cambridge US Private Equity Index returned -0.36% for the trailing one-year period and 16.18% for the trailing five-year period ending March 2023.
- Absolute return strategies returned -0.29% for the month and 4.77% over the trailing one-year period, as measured by the HFRI FOF Comp Index.
- Crude oil's price increased by 8.56% during the month and has increased by 14.22% YoY.

Memo

TO: Boise State Foundation Campaign Committee

FROM: Alison Bilgic

Director for Foundation and Board Operations

Boise State University Advancement

SUBJECT: Investment Committee Charter

MEETING DATE for REVIEW: 10/24/2023

REFERENCE: Bylaws and Investment Committee Charter.

Background:

In keeping with the board policies, the Investment Committee Charter should be reviewed once every three years. The Investment Committee Charter was last updated in February of 2020, so it is due for a review and possible revision. In reviewing all of our Charters we noticed inconsistencies in formatting and level of detail, for that reason we are suggesting a few edits.

The edits shown in the redline version of the charter are primarily focused on formatting and bringing this charter in line with the others through similar language and design. There are no truly consequential changes being suggested.

Making these changes will make the Charter current and accurate to the role of the Committee, and make the formatting consistent with other board charters.

BOISE STATE UNIVERSITY FOUNDATION, INC. INVESTMENT COMMITTEE CHARTER

Effective Date: February 3, 2020 October 24, 2023

MISSION:

As a committee under the Amended and Restated Bylaws (the "Bylaws") of the Foundation, the Investment Committee has the responsibility to ensure that the assets of the Foundation are managed in a manner that is consistent with the Investment Policy Statement and other policies and objectives ratified by the Board. In so doing, the Committee will comply with all applicable laws.

APPOINTMENT, MEETINGS, AND REPORTING TO THE BOARD COMPOSITION:

The Board shall appoint an Investment Committee comprised of at least five (5) Directors, including the Committee Chair, as mandated by the Bylaws. Appointment of members, meeting-rules, and Board reporting are defined in the Bylaws.

STAFF:

Primary staff support for the Investment Committee is the Executive Director.

COMMITTEE OBJECTIVES:

- 1. Developing and recommending to the Board investment objectives that are consistent with the financial needs of the Foundation, and the policy asset allocation consistent with meeting those objectives;
- 2. Selection of investment consultants, investment managers, custodians and other investment professionals;
- 3. Reviewing and evaluating investment results in the context of predetermined performance standards, and implementing corrective action as needed; and
- 4. Recommending Spending Rate guidelines to the Board.

ROLE OF CHAIR:

- 1. To provide leadership to the Committee in fulfilling its role, and to work with the Foundation staff on Committee activities.
- 2. To participate in determining meeting agenda and preside at Committee meetings.

STAFF:

<u>Investment Committee Charter Page 1 of 2</u>

Primary staff support for the Investment Committee is provided by the Executive Director, Finance Manager, and Director for Foundation Board Operations.				

Memo

TO: Boise State Foundation Campaign Committee

FROM: Alison Bilgic

Director for Foundation and Board Operations

Boise State University Advancement

SUBJECT: Investment Policy Statement Discussion

MEETING DATE for REVIEW: 10/24/2023

REFERENCE: Statement of Investment Policy

Background:

Recent discussions in Committee and with RVK around maintaining purchasing power, prompted further analysis of whether our objectives in the policy are practical, given market realities. The question to RVK was how might this be reflected in the policy. The included redline is an attempt at finding that balance, and is being presented for committee discussion. Our current policy is in keeping with industry standards, and these changes would not completely abandon the idea of preserving real purchasing power.

Note: other formatting changes are simply cosmetic updates that we are considering as a new standard for our policies.

Boise State University Foundation

Investment Policy Statement

October 2023

INTRODUCTION AND PURPOSE

The intent of this <u>Statement Policy</u> is to articulate an investment strategy with specific parameters that reflect the philosophy of the Board of Directors (the "Board"), thereby providing the Investment Committee (the "Committee") with clearly defined policies and objectives. Although these policies and objectives are intended to govern investment activity, they are intended to be sufficiently flexible in order to be practical.

INVESTMENT PHILOSOPHY STATEMENT

The following statements represent the investment principles and philosophy governing the investment of funds held by the Boise State University Foundation (the "Foundation"). These statements describe the core values and principles that form the basis for investment decision making.

These commonly held fundamental investment principles are:

- 1. That the single most important decision that the Committee makes is the long-term asset allocation decision. As a result, nearly all of the absolute levels of investment returns are attributable to the Committee's decisions regarding asset allocation, not manager implementation.
- 2. That a critical component of successful long-term investing is maintaining a high degree of strategic consistency. The long-term strategic asset allocation should remain very stable, and as such there shall be a very high bar for making any changes to essential characteristics of the long-term strategy, regardless of market conditions.
- 2.3. That the capital markets are mean-reverting by nature. The Committee will therefore use long-term strategic asset class allocations and rebalance to those allocations within suitable ranges.
- 3.4. That the achievement of long-term investment goals is derived directly from sound investment strategy decisions and efficient and consistent implementation of the strategy. Tactical asset allocation or manager allocation changes (usually in reaction to recent market performance) are likely to result in poor outcomes that will impair the long-term performance of the funds. As a result, the Committee will avoid tactical allocations to any manager or asset class in reaction to recent market conditions and instead rely on consistent portfolio rebalancing.
- 4.5. That the achievement of the Foundation's long-term investment goals necessitates that the investment strategy be based on using a combination of asset classes (and sub-asset classes) that has a reasonable probability of achieving the Foundation's goals. As a result, the Committee will periodically conduct asset allocation studies to assess the probability of achieving its long-term goals.
- 5.6. That market timing is ineffective as a market strategy for institutional funds. As a result, the Committee will remain fully invested in all long-term mandates and avoid interest rate anticipation as the primary means of adding value in fixed income mandates.
- 6.7. That some asset classes are inefficient and active managers can clearly add value. Other the majority of asset classes that the Foundation invests in, most notably the domestic large cap equity market, are more efficient. As a result, the Committee may allocate assets between active and passive (index) allocations based on recommendations by the Consultant, utilizing active strategies only where there appears to be a clear benefit to doing so.
- 7.8. That it is necessary to use long time frames and appropriate benchmarks to fairly evaluate active manager performance. Active managers are, by definition, different than a passive index. Differences in manager styles (growth, value) and market capitalization will have multi-year cycles. Additionally, active managers may be hired specifically to have different risk characteristics than popular indices. As a result, managers will have periods of both under- and

out-performance relative to popular indices. In establishing individual manager investment objectives and in evaluating manager performance:

- a. The Consultant will use long time frames (rolling 3- and 5-year periods, or longer as appropriate),
- b. The Consultant will set appropriate investment objectives using relevant style and capitalization benchmarks,
- c. The Consultant will evaluate managers on a risk-adjusted basis.
- 8. Investment implementation should be cost and resource effective. When evaluating new and current asset classes, managers and implementation strategies, the Consultant will evaluate both the implementation and monitoring costs and requirements, as well as the incremental benefits in terms of both risk and reward to the funds. The Consultant will utilize only those investment strategies that are expected to provide meaningful benefits to the funds, net of implementation and monitoring costs.

DELEGATION OF RESPONSIBILITIES

Relationship between Board and the Investment Committee

The Board is responsible for the overall stewardship of the Foundation. The Board has delegated to the Investment Committee the responsibility to oversee the Foundation's investment activities on the Board's behalf.

The Committee will consist of an odd number of Directors with a minimum of seven. Appointment and terms of the Committee Chair and members are defined in the Foundation Bylaws. The members of the Investment Committee will be generally knowledgeable in investment and financial matters. The Committee may also have Advisors as specified in the Foundation's Bylaws. The Committee has the responsibility to ensure that the assets of the Foundation are managed in a manner that is consistent with the policies and objectives ratified by the Board. In so doing, the Committee will comply with all applicable laws.

The Committee members are required to discharge their duties solely in the interest of the Foundation and for the exclusive purpose of meeting the financial needs of the Foundation. The Committee is authorized to engage the services of a Consultant who possess the necessary specialized research capabilities and skills to meet the investment objectives and guidelines of the Foundation. The Committee will require the Consultant to adhere to any policies adopted by the Board.

The Committee's responsibilities include:

- 1. Developing and recommending to the Board investment objectives that are consistent with the financial needs of the Foundation and the policy asset allocation consistent with meeting those objectives;
- 2. Approving the selection of a Consultant.
- 3. Reviewing and evaluating investment results in the context of predetermined performance standards and implementing corrective action as needed; and
- 4. Recommending Spending Rate guidelines to the Board.
- 5. Meeting with the Consultant at least quarterly to review and evaluate Consultant reports and provide feedback and direction to Consultant. Consultant reports will include overall investment performance and individual investment managers on a risk-adjusted basis after comparison to appropriate market indices or other benchmarks
- 6. Investment manager and fund vehicle selection and retention decisions with recommendations provided by the Consultant

- 7. Evaluating the performance of the Consultant at least annually prior to the annual contract renewal. Such evaluation will include the following criteria:
 - a. Comparison of endowment portfolio performance to the goals set in the Return Need section of this Policy.
 - b. Evaluation of Consulting and investment management fees.
 - c. Evaluation of overall level of Consultant's customer service (responsiveness; timeliness; accuracy; etc.).
 - d. Review changes of Consultant ownership/management and investment philosophy.
 - e. Other criteria determined by the Board and/or Committee

Consultant

The Committee will engage an independent investment consulting firm to assist the Committee's activities. The Consultant is expected to be proactive in recommending changes in investment strategy, asset allocation and investment managers if the situation warrants change. The Consultant's responsibilities include:

- 1. Assisting in the development of investment policies, objectives and guidelines;
- 2. Preparing asset allocation analyses as necessary and recommending asset allocation strategies with respect to the Foundation's objectives;
- 3. Researching and recommending Investment Managers and investment funds consistent with the Asset Allocation parameters defined in Appendix A.
- 4. Preparing and presenting performance evaluation reports in accordance with CFA Institute promulgated standards;
- 5. Attending Committee meetings to present evaluation reports no less than quarterly and at other meetings as requested;
- 6. Reviewing contracts and fees for both current and proposed Investment Managers and Custodians;
- 7. Providing research on specific issues and opportunities and assisting the Committee in special tasks;
- 8. Proactive monitoring, advising and assisting with the endowment portfolio and rebalancing when outside target allocation ranges.
- 9. Communicating investment policies and objectives to the Investment Managers, and monitoring their adherence to such policies and reporting all violations to the Committee and the Chief Operating Officer/Chief Investment Officer;
- 10. Notifying the Committee and Foundation of any significant changes in personnel or ownership of the consulting firm;
- 11. Notifying the Committee and Foundation of any significant changes in portfolio managers, personnel or ownership of any investment management firm hired by the Foundation;
- 12. Notifying the Committee and Foundation of any litigation or commencement of a regulatory administrative proceeding or enforcement action in which any Investment Manager is involved;
- 13. Providing recommendations with regards to proxy votes of mutual and commingled fund investments; and
- 14. Overall, being proactive with the Administration of the Foundation and the Committee in the management of the Foundation investments.

Investment Managers

Investment Managers are expected, where applicable, to pursue their own investment strategies within the guidelines created for the manager in accordance with the Foundation's asset allocation strategy and manager selection criteria. Coordination of the guidelines for the individual managers assures the combined efforts of the managers will be consistent with the overall investment objectives of the Foundation. The Committee may, where appropriate, choose to invest in pooled funds (mutual funds, commingled funds, and other forms of pooled investor capital) and recognizes that in the case of pooled fund investments that the relevant fund documents shall be the governing documents for the investment.

The Investment Managers' responsibilities include:

- 1. Investing assets under their management in accordance with agreed upon guidelines and restrictions:
- 2. Exercising discretionary authority over the assets entrusted to them, subject to these guidelines and restrictions;
- 3. Providing written documentation of portfolio activity, portfolio valuations, performance data and portfolio characteristics on a monthly basis in addition to other information as requested by the Committee, Foundation, or Consultant;
- 4. Voting proxies for the assets under management (companies held within the portfolio) in the best interest of the Foundation;
- 5. Annually providing to the Foundation either a copy of the investment advisor's form ADV Part II (SEC required disclosure document), a copy of the investment company's annual report, and/or a copy of the fund's updated prospectus (SEC requirement at the end of the fiscal year).
- 6. Notifying the Consultant, Committee and Foundation of any significant changes in portfolio management style, personnel or ownership of the investment management firm; and
- 7. Notifying the Consultant, Committee and Foundation of any litigation or commencement of a regulatory administrative proceeding or enforcement action in which any Investment Manager is involved;

The Foundation Custodian's responsibilities include:

- 1. Providing timely reports detailing investment holdings and Foundation transactions monthly to the Foundation and Consultant.
- 2. Providing an annual summary report to the Foundation and the Consultant within 30 days following each fiscal year end. The report will include the following:
 - a. Statement of all property on hand;
 - b. Statement of all property received representing contributions to the Foundation;
 - c. Statement of all sales, redemptions and principal payments;
 - d. Statement of all distribution from and contributions to the Foundation;
 - e. Statement of all expenses paid;
 - f. Statement of all purchases; and
 - g. Statement of all income.
- 3. Providing all normal custodial functions including security safekeeping, collection of income, settlement of trades, collection of proceeds of maturing securities, daily investment of cash, etc.

4. Preparing additional Foundation reports as requested by the Board, Committee, Consultant, or Executive Director.

INVESTMENT POLICIES AND OBJECTIVES

Endowed Fund Objectives and Guidelines

Objective: The Investment objective is to provide a rate of return over inflation, when possible to do so, sufficient to support in perpetuity the mission of the Foundation. It is particularly important desirable to preserve the value of the assets in real terms to enable the Foundation to maintain the purchasing power of the spending on programs and administration without eroding the real value of the principal corpus of the Foundation.

General Investment Considerations and Constraints:

- **Risk:** The Committee will seek to limit the overall level of risk commensurate with the chosen Policy Asset Allocation.
- **Liquidity:** At times, cash may be required to satisfy the needs of the Foundation. The Foundation should have sufficient liquid assets to meet such foreseeable requirements.
- **Time Horizon:** The Foundation has an infinite life. An investment Time Horizon of twenty years is appropriate.
- **Taxes:** The Foundation is tax-exempt.

Return NeedObjective and Benchmarks

As stated in this policy, it is desirable when possible, for tThe long-term investment return should to be sufficient to cover the Spending Rate, Administrative Fee and the expected rate of inflation. The Spending Rate is currently 4% and the Administrative Fee is 1.5%, so the Foundation's real return need net of inflation is 5.5%. As these objectives may not always be feasible under certain economic and capital markets environments, the primary return objective shall be to exceed the return of a reference portfolio that is 70% global equities and 30% US fixed income. This reference portfolio is selected as it si considered appropriate for the long-term needs for the Foundation over most time periods and is reflective of a traditional perpetual Endowment and Foundation asset allocation policy. Given the relatively high return need, it is appropriate for the portfolio to be equity centric (70%), yet still diversified with volatility reducing fixed income (30%). Global diversification that reflects the market opportunity set is considered in the best interest of long-term returns for the equity portfolio, while currency risk is not desired as a primary feature of the relatively safer fixed income assets.

There may be periods of time where the Consultant's projections for future returns do not support the stated return need without assuming an undiversified portfolio strategy that would introduce imprudent levels of risk. It shall be the philosophy of the Committee to maintain a diversified long-term strategy during such periods, and to also consider to the extent possible elements of the spending rate and administrative fee that can be reasonably adjusted over time to better support the perpetual mission of the Foundation.

The following goals are designed to support achievement of the Foundation's Investment Objective and are net of (after) investment expenses.

- 1. Exceed the return of a reference portfolio that consists of 70% Global Equity (MSCI All-Country World Index) and 30% US Fixed Income (Bloomberg Aggregate Bond Index).
- 1.2. Total Foundation assets should—Aachieve an annualized rate of return equal to or greater than that of the Long-Term Return Need in all long-term periods (10+ years) where the reference portfolio achieves a return equal to or greater than the annual return need. over a full market cycle.

32. Total Foundation assets should return, over a full market cycle, a nominal rate of return greater than or equal to a hypothetical index portfolio consisting of 32% Russell 3000, 33% MSCI All Country World ex-US, 25% Barclays Aggregate Bond, 3% Barclays U.S. TIPS, 2% S&P Global REIT Index, 2% S&P Global Natural Resources Index, and 3% S&P MLP Index (TR).

Spending Rate Policy

Spending Rate

The Spending Rate of the Foundation will be reviewed by the Committee periodically in light of evolving trends with respect to investment performance and the needs of the Foundation and will be adjusted as necessary.

As allowed by the Uniform Prudent Management of Institutional Funds Act adopted by the state of Idaho in July 2007, the Foundation may spend at its Spending Rate from "underwater" funds for the purpose of the specific fund. An underwater fund is defined as one in which the market balance is below the sum of the gifts contributed to the fund ("historical gift value").

Unless otherwise directed by the donor for a specific endowed gift, the annual Spending Rate shall not exceed 4% of the trailing 12-quarter average market value of the endowment, as determined each December 31st. The Spending Rate shall be reduced from 4% to 2% when the market value is below 90% of the historical gift value.

In the event the spending rate is reduced from 4% to 2% donors may be asked to consider new gifts to keep their endowment distributions at the 4% level and the Foundation Board may consider funding from unrestricted funds. In the event the Foundation Board approves the use of unrestricted funds when endowment distributions are reduced, a special distribution from the endowment to refund the Foundation may be considered once the market value of the endowment is sufficiently above the historical gift value.

Total Return Policy

The Board has adopted a "total return" approach to calculating investment returns.

In recognition of these facts, the Committee will consider the endowments' total return from both income and net realized and unrealized capital gains when recommending the Spending Rate Policy. When distributions are made, they will be withdrawn from the endowment regardless of the portion of the total return that is from capital gains or from income, subject to applicable gift agreement restrictions.

Administrative Fee

An Administrative Fee of 1.5% of the market value of the endowment will be calculated and distributed monthly on a pro-rata basis. The Administrative Fee will be reviewed and evaluated annually as part of the preparation of the Foundation's annual budget. Efforts will be made to gradually reduce the administrative fee percentage as the endowment grows.

Asset Allocation

The single most important decision made by the Committee is the Policy Asset Allocation decision. Investment research has determined that a significant portion of a portfolio's investment behavior can be attributed to: (1) the asset classes/styles which are employed by the Foundation; and (2) the weighting of each asset class/style.

It is the responsibility of the Committee to identify the Policy Asset Allocation that offers the highest probability of achieving the Foundation's Investment Objectives. The Committee, with guidance and recommendations from their Consultant, shall review the asset mix on an ongoing basis and recommend revisions as necessary. It is expected however, given the importance of strategic consistency, that material

changes to the strategic asset allocation mix should be avoided, and any changes should only be made with great care and consideration.

The Policy Asset Allocation shall be determined based on a comprehensive asset allocation study completed by the Consultant and reviewed from time to time by the Committee. The Policy Asset Allocation of the Foundation, as presented in **Appendix A**, is designed to give balance to the overall structure of the Foundation's investment program over the Time Horizon. However, many factors over time may necessitate an asset allocation review and possible rebalancing.

Some of these factors include:

- 1. The Investment Committee's assessment of the intermediate or long term outlook for different types of asset classes and styles;
- 2. The consultant's assessment of the intermediate or long term outlook for different types of asset classes and styles; and
- 3. Divergence in the performance of the different asset classes and styles.

Permissible Investments

The Policy Asset Allocation of the Foundation is expected to include a wide range of asset classes. These asset classes and their relative comparative indices are displayed below.

COMPARATIVE INDICES FOR INVESTMENT MANAGERS

Asset Class	Comparative Index
Global Equity	
Domestic Equity US Large Cap US Mid Cap US Small Cao US Micro Cap	S&P 500 CRSP US Mid Cap Russell 2000 Russell Micro Cap
International Equity Non-US Large/Mid Cap Developed Non-US Small Cap Emerging Markets	MSCI EAFE MSCI EAFE Small Cap MSCI Emerging Markets
Global Fixed Income	
Core Emerging Markets	Barclays US Aggregate JP Morgan EMBI Global Diversified
Global Real Assets	
TIPS Global REITs Global Natural Resources Master Limited Partnerships (MLPs)	Barclays US TIPS S&P Global REIT S&P Global Natural Resources S&P MLP Index (TR)

Portfolio Rebalancing

Since asset allocation is the most critical component of the Foundation's returns, it is desirable to rebalance the portfolio periodically to minimize deviations from the Policy Asset Allocation mix.

The Consultant shall be responsible for coordinating rebalancing of the portfolio with Foundation Staff in the event any individual marketable asset class differs from the allowable Policy ranges (minimum or maximum). See Appendix A for the Policy Target allocation and allowable ranges.

The staff will inform the Committee whenever rebalancing takes place.

Other Non-Endowment Assets

The Board may, from time to time, establish investment portfolios other than the Endowment Fund. Asset allocation and investment guidelines for these portfolios will be developed as needed and, when appropriate, in consultation with the donor.

The Foundation Investment Objectives and Guidelines for restricted funds are stated in Appendix B to this Policy Statement.

The Foundation Investment Objectives and Guidelines for assets from life income agreements (charitable remainder trusts and charitable gift annuities) are stated in Appendix C to this Policy Statement.

The Foundation Investment Objectives and Guidelines for unrestricted assets are stated in Appedix D to this Policy Statement.

The Foundation owns several parcels of real estate as the result of individual gifts and purchases made in the interest of the University. The Investment Committee has appointed a real estate subcommittee to monitor these properties, review potential gifts and make recommendations regarding disposition to the Board.

The trust assets and parcels of real estate are not included in the Foundation's investment asset allocation, nor are they included in the Consultant's purview.

Investment Policies for Investment Managers

The following are performance goals and constraint guidelines placed on individual managers within specific asset classes:

All Traditional Managers

- 1. Index (passive) managers shall be terminated if performance or volatility significantly differs from that of the benchmark.
- 2. Active managers may be terminated due to philosophical changes, management turnover, poor long-term investment performance or other material changes.

Alternative Investments

1. Alternative investment managers typically must have significant latitude in the strategies and investments they make and the leverage they introduce into a portfolio. As a result, it is generally not feasible to impose guidelines and restrictions on such managers. Instead, the Committee may choose to terminate a manager, subject to the manager's liquidation policy, if they are dissatisfied with the manager and/or his strategy.

Other

- 1. *Securities Lending:* Investment Managers (via a written contract with the Foundation), may engage in securities lending, or the "loan" of the Foundation's securities in return for interest, to broker dealers as a means of enhancing income.
- 2. *Related Party Transaction:* The Foundation will not loan funds to related parties, defined as an officer, Board member, Committee member, employee, or donor, either current or prospective.

Procedure for Revising the Statement of Investment Policy

This Statement of Investment Policy will be reviewed at least annually by the Committee. The Board must approve material changes to the Statement. Any deviation from the Policy Asset Allocation of the combined asset sectors (i.e., total equities, total fixed income, or total real assets) would represent a material change and shall be approved by the Board.

Conflicts of Interest

All persons responsible for investment decisions or who are involved in the management of the Foundation or who are consulting to, or providing any advice whatsoever to the Committee, shall comply with the Foundation's Conflict of Interest Policy.

Any members of the Committee responsible for investment decisions or who are involved in the management of the Foundation shall refuse any remuneration, commission, gift, favor, service or benefit that might reasonably tend to influence them in the discharge of their duties, except as disclosed in writing to and agreed upon in writing by the Committee. The intent of this provision is to eliminate conflicts of interest between committee membership and the Foundation. Failure to disclose any material benefit shall be grounds for immediate removal from the committee. This provision shall not preclude the payment of ordinary fees and expenses to the Foundation's custodian(s), Investment Managers, or Consultant in the course of their services on behalf of the Foundation.

APPENDIX B

RESTRICTED FUNDS

INVESTMENT OBJECTIVES AND GUIDELINES

Objectives and Guidelines

Objective: The Investment objective is to maximize total return within the liquidity parameters required to meet the short-term cash flow needs of the Foundation.

General Investment Considerations and Constraints:

- **Risk:** The Committee will seek to limit the overall level of risk commensurate with the anticipated liquidity needs and allocation of funds across the portfolios as described in this appendix. In general, the Committee prefers that shorter-term portfolios exhibit high levels of credit quality, liquidity, and overall safety.
- **Liquidity:** Liquidity needs will be determined by projected cash flows, with funds allocated across the various portfolios based primarily on anticipated liquidity needs.
- **Time Horizon:** Although the Foundation has an infinite life, the Time Horizon for investment of most these funds is generally much shorter. A portion of the funds may be invested in a longer-term strategy based on an analysis of the projected cash flow.
- **Taxes:** The Foundation is tax-exempt.

Investment Managers

Separate account investment Managers are expected to pursue their own investment strategies within the guidelines created for the manager in accordance with the Foundation's asset allocation strategy and manager selection criteria. Coordination of the guidelines for the individual managers assures the combined efforts of the managers will be consistent with the overall investment objectives of the Foundation.

Pooled vehicles such as mutual funds may be utilized as appropriate where deemed to offer the desired exposure with greater efficiency and/or diversification.

Investment Managers are held to the same requirements as delineated in the "Delegation of Responsibilities" section of the Foundation's IPS.

Asset Allocation

Restricted funds may be allocated across three distinct portfolios as detailed below, each with different objectives and time horizons. The Executive Director of the Foundation, in coordination with the Finance Manager, Investment Consultant, and Chair of the Investment Committee will be responsible for the allocation of funds across the different portfolios based on cash flow projections and anticipated future liquidity needs. Updates on the cash flow projections and allocation of funds will be provided to the Investment Committee on a regular basis.

Liquid Reserves

The liquid reserves are intended to meet the short-term liquidity needs of the Foundation and as such should be invested in very short-term high quality instruments. To the extent individual securities are managed by an asset manager, the guidelines will be detailed in the agreement with the investment manager. Government money market funds, prime money market funds, and ultra-short duration bond mutual funds or exchange traded funds may also be utilized for the liquid reserves. Regardless of the investment vehicles chosen, it is expected that the overall liquid reserve portfolio will maintain the

following characteristics (inclusive of a look through to the underlying securities in any fund vehicles utilized):

- Weighted average maturity not to exceed 180 days
- Single issuer limit: 5% excluding US Government and Agencies
- Average credit quality: A or better
- Minimum quality at time of purchase: BBB-

The reference performance benchmark for the liquid reserves is the BofA Merrill Lynch 3 month Treasury Bill Index.

Intermediate Reserves

The intermediate reserves are intended to provide a higher return potential for funds not required to support short-term liquidity needs, but for which the potential investment time horizon is uncertain and potentially much shorter than the perpetual nature of the Foundation. As such the intermediate reserves will be invested in high quality, intermediate fixed income securities. To the extent individual securities are managed by an asset manager, the guidelines will be detailed in the agreement with the investment manager. Intermediate and Core Fixed Income mutual funds or exchange traded funds may also be utilized for the intermediate reserves. Regardless of the investment vehicles chosen, it is expected that the overall intermediate reserve portfolio will maintain the following characteristics (inclusive of a look through to the underlying securities in any fund vehicles utilized):

- Effective duration not to exceed 120% of the Bloomberg Barclays Intermediate Government/Credit Bond Index
- Single issuer limit: 5% excluding US Government and Agencies
- Average credit quality: A or better
- Minimum quality at time of purchase: BBB-

The reference performance benchmark for the intermediate reserves is the Bloomberg Barclays Intermediate Government/Credit Index.

Long-term Reserves

Longer-term reserves in excess of the amounts identified for the liquid reserves and the intermediate reserves, up to a maximum of \$5 million, will be invested in the long-term Endowment strategy as detailed in this policy.

The allocation of restricted funds among the portfolios shall be determined based on a comprehensive cash flow analysis by the Foundation Administration, and in consultation with the investment consultant and chair of the investment committee. The Investment committee will review the allocation among the portfolios, the performance of the portfolios against benchmarks, compliance with this policy and the selection of investment managers and fund vehicles at its regular meetings.

Procedure for Revising Guidelines

The investment policy and performance goals will be reviewed annually or when deemed necessary by the Committee. The Board must approve material changes to the Investment Objectives and Guidelines for non-endowed Foundation funds.

APPENDIX C

INVESTMENT OF ASSETS FROM LIFE INCOME AGREEMENTS

Life Income Agreement Definition: A life income agreement is a split interest agreement between the Foundation and a donor which provides regular payments for the life of the beneficiary(ies) or for a set term of years. Examples are Charitable Remainder Trusts (CRTs) and Charitable Gift Annuities (CGAs). Refer to the Life Income Agreement Policy for definitions of each type of life income agreement.

Objectives and Guidelines

Objective: Life income assets are invested to meet the goals of the donor and Foundation using varying investment strategies based on the uniqueness of each life income agreement.

Guidelines: The Foundation's Investment Committee will have the responsibility and authority for determining the most appropriate investment strategies and vehicles for all life income agreements. **Charitable Remainder Trusts**:

- Because each CRT will have different objectives, the Investment Committee shall set an investment strategy for each based on collected data and the terms delineated in the CRT document. CRTs may or may not be co-mingled with other assets of the Foundation.
- The Investment Committee will determine the investment strategy for each CRT for which the Foundation is the trustee.

Charitable Gift Annuities:

- The Foundation will maintain CGAs in an investment pool that may be separate from its general investment pool.
- The full market value of the contributed assets will be admitted to the CGA investment pool and will be maintained for the life of the last remaining annuitant.
- All CGAs will share their fair portion of investment management fees.
- The assets of each CGA shall be invested approximately as follows:
 - o 50% in equities;
 - o 50% in fixed income vehicles such as bonds; and

Reporting

Foundation staff will report investment results, portfolio mix, and growth in the life income agreement program to the Investment Committee at least annually.

Procedure for Revising Guidelines

The investment policy and performance goals will be reviewed annually or when deemed necessary by the Committee. The Board must approve material changes to the Investment Objectives and Guidelines for life income agreement funds.

APPENDIX D

INVESTMENT OF UNRESTRICTED ASSETS

A minimum of 1.5 times the annual operating budget of the Foundation will be invested in fixed income as defined in Appendix B. The balance of unrestricted funds may be invested in the Endowment Strategy.
